This is by far the best gentlemen's tour in Aruba. Explore the secret red district side of Aruba with an experienced, bi-lingual guide. Prostitution is 100% legal in a small Aruba town. And from my worldly experience this is by far the safest, cleanest, and cheapest place to get gorgeous, passionate women.

You're picked up your hotel by one of our certified red light district concierges. As you're driven to the red light district watch a hot video about the red district and what to expect. Your concierge asks you a few questions on your particular women taste. Tall, thin, blonde, brunette, young just let him know what you're looking for. You're taken right to what you're looking for. Your concierge will provide translation services for you. About eighty percent of the women speak only Spanish. The concierge will tell the girls the right things so you have incredible sex.
